

# RUNNING IN TRIANGLES

POP/INDIE/FUSION

## Running in Triangles

is a 3 piece band from Newark, DE. We're just two guys and a girl who happen to study music at the University of Delaware. Formed in September 2010, our goal was to infuse

the singer-song writer style music with groove. This blending of styles, mixed with the eclectic approach to pop music creates a completely new genre for the trio to tackle.
